PROFILE SUMMARY
Passionate and growth-focused Frontend Developer transitioning from CMS-based platforms to modern frontend technologies. Experienced in building responsive, interactive, and accessible web applications using JavaScript ES6+, React.js (React hooks), Tailwind CSS, and responsive design principles. Committed to continuous learning, performance optimization, cross-browser compatibility, and building pixel-perfect UI with seamless UX. Strong foundation in web fundamentals and a keen eye for design and unit testing.

SKILLS SUMMARY
Frontend Technologies: JavaScript ES6+, React.js (React hooks, state management), HTML5, CSS3, Tailwind CSS, responsive design, cross-browser compatibility

Tools & Frameworks: Redux, Figma, Git, GitHub, Vercel deployment, unit testing (Jest)

CMS Platforms: WIX, WordPress, Shopify

Core Competencies: Performance optimization, component-based architecture, DOM manipulation, API integration

TECHNICAL SKILLS
Languages: JavaScript ES6+
Frontend: HTML5, CSS3, Tailwind CSS, React.js (React hooks), Redux
CMS Experience: WIX, WordPress, Shopify
Design & Tools: Figma, Git, GitHub, Jest (unit testing)
Deployment: Vercel (CI/CD pipelines), performance optimization

PROJECTS
Resume Builder
AI-powered online resume builder using React.js, React hooks, Tailwind CSS, Lucide Icons, and PrebuiltUI. Implemented responsive design, state management with useState/useEffect, and PDF generation. Improved rendering performance by 40% through code splitting and lazy loading. Demonstrates advanced React patterns and production-ready frontend architecture.

Live Demo: Resume Builder Demo

Bluebrisk E-commerce
Portfolio-ready e-commerce frontend with React.js, Redux state management, Tailwind CSS, and responsive design. Features product listings, shopping cart with localStorage persistence, and reusable components. Achieved cross-browser compatibility (Chrome, Firefox, Safari) and 95% Lighthouse performance score through optimization techniques.

PROFESSIONAL EXPERIENCE

WIX Specialist - Website Developer
Ahmedabad, Gujarat
January 2023 - Present

Developed and customized 500+ responsive websites on WIX, WordPress, and Shopify platforms using HTML5, CSS3, and JavaScript ES6+

Implemented responsive design and cross-browser compatibility, reducing mobile bounce rate by 35% through optimized media queries and flexbox/grid layouts

Integrated custom JavaScript functionality including form validation, animations, and API integrations, improving user engagement by 28%

Migrated 15+ client sites to modern frontend architecture using React.js components and Tailwind CSS, achieving 30% faster page load speeds

Deployed applications using Vercel CI/CD pipelines and performed performance optimization, reducing bundle size by 25% through tree-shaking

Collaborated with cross-functional teams using Git/GitHub workflows for version control and code reviews

EDUCATION

Bachelor of Engineering (BE), Mechanical
Visvesvaraya Technological University (VTU), Belagavi
June 2014 - May 2019

LANGUAGES

English, Hindi, Kannada
